

EXTREME Hose range innovations

The new hose family meeting all international
ISOBARIC standards:

- ISO 18752
- SAE 1754, SAE J517 R17 & R19,
- exceeds JIS K6349-3

Innovative wire spiral construction for **high compactness, lightness and flexibility**

High **environmental and abrasion resistant cover**

Flame resistant and antistatic cover

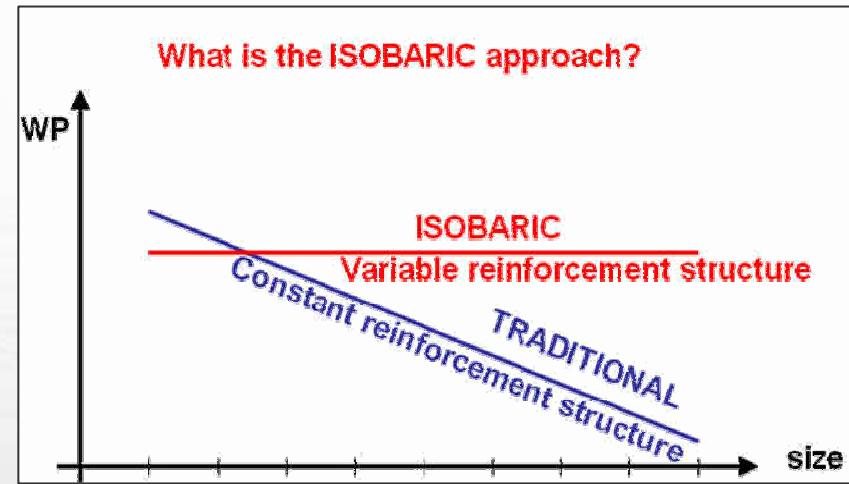

High durability

Golden iSO™

Isobaric approach

new

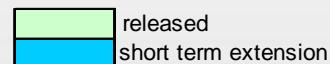

- User friendly product selection (isobaric approach)
- Uniform connection branding on machinery

For high demanding OEMs and tough environments

Golden iSO™

Innovation 2011 !

NEW

GoldenISO™/28 XtraFlex

For tough applications: forestry machines

- Isobaric hose line (meets ISO 18751 spec., type C & D=1 Mil. impulse cycles)**
- Compactness, Lightness, high Flexibility, low Bend Radius**
- MF2000 Skive and MF3000 No-Skive fittings**
- High abrasion and environmental resistance**
- Flame retardant and antistatic cover**

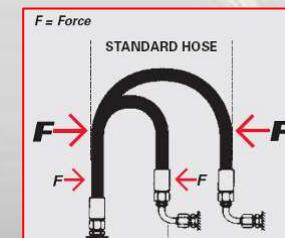

GoldenISO™/28 XtraFlex

NEW

- Isobaric 280 bar wire spiral hose line, DN 10 to 31
- More compact and flexible hose structures than R12
- New **OPK** (MF3000 one piece no-skive) fittings, using Multifit insert design
- Traditional skive fittings two piece style for high demanding OEMs and aftermarket as well
- “**Rockmaster**” style cover compound, high abrasion resistance, flame retardant and antistatic properties
- Type C (half million impulse cycles, 120°C) and D (**one million impulse cycles, 120°C**) according to ISO 18752 spec., according to fittings selected
- Very **good flexibility** even at **low temperatures**

For tough applications: snow groomers

GOLDENISO/28 XTRAFLEX

KEY PERFORMANCE

Excellent flexibility (low bending force), also in low temperature applications - Reduced bend radius - Easy mounting in severe installations - Isobaric pressure rating - BIO biological and mineral oils compatibility - No-skive fitting solution

MAIN APPLICATIONS

High pressure power lines with short assemblies in severe installations

CONTINUOUS SERVICE TEMPERATURE RANGE

-40 °F / 250 °F
-40 °C / 121 °C

RECOMMENDED FLUIDS

Mineral oils, vegetable oils and synthetic ester based oils (up to 100°C/212°F), glycols and polyglycols, mineral oils in aqueous emulsion, water

TUBE

Oil resistant synthetic rubber

REINFORCEMENT

4 high tensile steel spirals

COVER

Synthetic rubber with high abrasion, ozone, weather and heat resistance

APPLICABLE SPECS

ISO 18752-C/D; JIS K6349-3

TYPE APPROVALS

MSHA
